The area chart illustrates the growth and fluctuations of the UK workforce over a 20-year period. The y-axis represents the number of people in the workforce in millions, ranging from 0 to 6. The x-axis represents the years from 1990 to 2010. The workforce starts at approximately 1.0 million in 1990, remains relatively stable until 1995, then rises to about 2.0 million by 1998. It continues to grow, reaching a peak of approximately 5.0 million in 2007. Following this peak, there is a sharp decline to about 4.0 million in 2008, a slight recovery to 4.5 million in 2009, and a final drop to approximately 1.0 million by 2010.

| Year | People in Workforce (millions) |
|------|--------------------------------|
| 1990 | 1.0 |
| 1991 | 1.0 |
| 1992 | 1.0 |
| 1993 | 1.0 |
| 1994 | 1.0 |
| 1995 | 1.0 |
| 1996 | 2.0 |
| 1997 | 2.0 |
| 1998 | 2.0 |
| 1999 | 3.0 |
| 2000 | 3.0 |
| 2001 | 2.0 |
| 2002 | 2.0 |
| 2003 | 4.0 |
| 2004 | 4.0 |
| 2005 | 3.0 |
| 2006 | 4.0 |
| 2007 | 5.0 |
| 2008 | 4.0 |
| 2009 | 4.5 |
| 2010 | 1.0 |
