[illegible]

The figure consists of two histograms side-by-side, both with a y-axis ranging from 0 to 6. The x-axis represents the number of children per family, with categories from 0 to 6. The left histogram shows a distribution with a peak at 4 children (frequency 6). The right histogram shows a distribution with a peak at 5 children (frequency 6).

| Number of Children | Frequency |
|--------------------|-----------|
| 0                  | 0         |
| 1                  | 1         |
| 2                  | 1         |
| 3                  | 1         |
| 4                  | 3         |
| 5                  | 2         |
| 6                  | 5         |
| 7                  | 5         |
| 8                  | 6         |
| 9                  | 4         |
| 10                 | 4         |
| 11                 | 3         |
| 12                 | 1         |
| 13                 | 1         |

| Number of Children | Frequency |
|--------------------|-----------|
| 0                  | 0         |
| 1                  | 2         |
| 2                  | 2         |
| 3                  | 4         |
| 4                  | 4         |
| 5                  | 6         |
| 6                  | 4         |
| 7                  | 5         |
| 8                  | 5         |
| 9                  | 3         |
| 10                 | 3         |
| 11                 | 3         |
| 12                 | 1         |
| 13                 | 0         |
